

Smartsheet is seeking a full time Sr. Mobile Software Engineer (iOS) to join its Development team. In this position you will design and build the iPhone and iPad versions of Smartsheet's Software as a Service (SaaS) offering for collaborative work and project management. Our software team is small, highly efficient, and results oriented. We work in an agile apolitical environment that stays focused on building great software. Here you can use the latest mobile and web technologies to their fullest potential. We are looking for the most highly motivated and intelligent individuals. This position is based at our headquarters in Bellevue, WA.

Job responsibilities include:

- Participate in the entire development life cycle, from concept to release
- Work closely with other developers to design and implement server-side Java APIs to support mobile application functionality
- Work closely with product managers, UI designers, and testers in a highly collaborative team environment
- Deliver secure, high performance, maintainable code using OO best practices
- Stay on top of developments in mobile technology, including prototyping new platforms, features, and functionality

Requirements:

- 4+ years software development experience
- BS in Computer Science or equivalent training and experience
- Experience with Objective-C and iOS application development
- A passion for mobile and tablet devices, applications and user interfaces
- Experience integrating RESTful APIs and web services with applications
- Experience building highly scalable, high availability applications
- Strong problem solving and troubleshooting skills
- Excellent written and verbal communication skills
- Ability to work independently in a fast-paced environment with frequent production releases
- Legally eligible to work in the U.S. on an ongoing basis

Nice to have:

- Working knowledge of Java
- HTML5, CSS3, and JavaScript experience
- Experience developing with jQuery Mobile
- Familiarity with SaaS business apps (Google Docs, Salesforce, Box, etc.)
- Experience using spreadsheet and project management applications
