Advanced Work Management With Smartsheet

Monday, September 30, 2019
8:00am - 5:00pm at The Washington State Convention Center
Course fee: $399

This course is designed for experienced Smartsheet users who want to implement best practices for managing and reporting on work at scale. The Advanced Work Management course includes topics such as implementing time-based workflows, advanced formulas, summary reports, deploying enterprise dashboards and charts, and more!

You will learn how to design robust solutions that provide the visibility needed at all levels, create workflows that keep all team members informed, and help ensure work gets done.
