Advanced Work Management with Smartsheet

Monday, September 30, 2019
8:00am - 5:00pm at The Washington State Convention Center
Course fee: $399

This course is designed for experienced Smartsheet users that want to implement best practices for tracking, managing, and reporting on work at scale. You will learn how to design robust, scalable solutions that provide the visibility needed at all levels.

Gain a greater understanding of how the premium apps and add-ons, including Control Center, can help you manage your work. Practice with the following Smartsheet features:
• Formulas
• Automated Workflows
• Forms
• Reports
• Dashboards

Course outline:
• Maximizing the Efficiency of your Solution
• Automating and Scaling Processes
• Reporting and Summarizing
• Creating Powerful Dashboards
• Managing Work at Scale
