Select plans do not have access to all premium features like Dashboards, Automated Actions, and Activity Log. If you are on a limited plan you can still use the template set however not all premium functionality will be available. Click [here](#) to see a list of discontinued plans.
Set Up

Using a workspace is a best practice when building a collaborative process. Workspaces allow you to centralize your work and control sharing with different stakeholders.

Step 1: 
**Create a New Workspace**

Open Home. From the home menu, click the Create button in the upper right hand corner. From the drop-down menu, select Workspace. Name the workspace.

Step 3: **Modify the Inspection Submissions Form**

The Inspection Submissions form is how superintendents submit their weekly inspection reports. Submissions are then added to the Inspection Submissions sheet where you can track and maintain inspection reports. The inspection date will be automatically captured when the form is submitted. Open the Inspection Submissions sheet and click on *Forms* in the top menu to customize the form.

A. Click on *Manage Forms* and then *Edit* to customize the existing fields. You can add or remove fields, change field titles or descriptions, and modify *Form Options*.

B. Mark fields as *Required Field* that you want to require superintendents to complete.

C. Click on *Add Field* to add a new field to your form. By adding a new field, you are also adding a new column to the Inspection Submissions sheet. Drag the field into the position where you want place your new field.

D. Set your form to be filled out by a *registered Smartsheet user* in *Form Options* to ensure that the *Inspector Email* column is automatically populated.

E. Click *Save* to close the form builder and copy, and save the URL displayed. Give this URL to superintendents who will be submitting an inspection report. You can also share it via email, hyperlink, or embed it on a website or dashboard.

Step 4:
Format the Inspection Submission Sheet

The Inspection Submission sheet contains the inspection report information and important items that you would like to track. Use it to collect, track, and maintain records of inspection submission. Color code the columns based on the inspection type (e.g. medical, equipment, etc.) to visually group the submissions sheet and make it easier to read.

A. Delete rows with example data.
B. Add or rename columns to best fit your organization needs.
C. Medical - First Aid Kit is a custom dropdown list column type. To modify the options in the dropdown list, double click on the column header and edit the options under Values. Repeat these steps to modify the options in the following columns: Medical - First Aid Stocked, Medical - Emergency Numbers, PPE - Hard Hats, PPE - Eye Protection, PPE - Footwear, and PPE - Hearing.
D. Enable the alert workflow that has already been set on this sheet to notify anyone shared to the sheet once a day when a new inspection submission has been added. Click on Automation and select Manage Workflows in the dropdown menu. Click the down-arrow in the upper-right corner of the rule and select Enable.
E. To view or edit the workflow, double click on the New Inspection Submission Alert workflow in order to open the editor window. Change the options in the Alert someone field to who and when you would like to receive the alert.

Step 5:
Sheet Bonus: View or Edit Your Project Summary Data

For those with a Business or Enterprise plan, this template set utilizes the sheet summary feature. The Inspection Submissions with Form sheet includes a pre-populated sheet summary that provides a standard, robust way to organize and report on project information in your sheet. Here you can see a quick recap of the total violations and what categories they fall under. Open the sheet summary on the right panel to view or edit your project summary fields. You can use formulas and reference another summary fields.

A. Click the sheet summary icon to expand the sheet summary. You can expand and collapse the right panel to stay in the context of your sheet or maximize your sheet real estate when you don’t need to view it.

B. To add fields, click +New Field.

C. Name your field and select the field type: Text/Number, Contact list, Date, Dropdown list, Checkbox, or Symbols.

D. To edit the field properties, hover over the right side of the field and click on the vertical ellipsis (⋯) to open the field options dropdown menu.

Step 6:
**Setup Inspection Metrics**

The Inspection Metrics is entirely driven by formulas. The formulas calculate violations from the Inspection Submission sheet. For any new columns/safety questions added to the Inspection Submission sheet, add a new section and a formula in the Submission Metrics Sheet.

A. Formulas in the Medical Chart Data and PPE Chart Data sections are counting the nos in the specified column in the Inspection Submission sheet.

   \[=\text{COUNTIF}\{\text{Your Question Column}\}, \text{"No"}\]  

B. Edit the Total Violations calculation to ensure all your new columns are being counted.

   \[=\text{SUM}(A13:G24)\]

C. Violations by Month counts the violations that happened in a specific month. The Month# column is used to indicate which month to count in the formula.

   \[=\text{COUNTIFS}\{\text{Your Question Column}\}, \text{"No"}, \{\text{Submission Date Column}\}, \text{MONTH}(\text{@cell}) = $[\text{Month num}]\]
Step 7: Update your Safety Dashboard

The Safety Dashboard provides a visual summary of key inspection metrics. Dashboards consist of different widgets that pull in live information from other sheets and reports.

A. Click Edit in the upper left corner to begin customizing. Then hover over any widget and select the pencil icon.

B. Replace the logo placeholder with your own logo in the Image widget.

C. Sheet - Inspection Submissions is a Shortcut widget that takes you directly to your Inspection Submissions sheet. Feel free to add a shortcut to the URL for the Inspection Submissions form and other documents and resources.

D. The charts under Medical Violations, PPE Violations, and Monthly Violations are Chart widgets, creating column and line charts from the formula values on your Inspection Metrics sheet.
