

# The Smartsheet for Students Plan

Institutions are under intense pressure to provide solutions conducive to virtual learning and work. Smartsheet, the platform for dynamic work, offers the Smartsheet for Students Plan to empower educators and staff at colleges, universities, and technical schools to request free licenses for their students. This allows instructors to incorporate Smartsheet into their curriculum and enables students to utilize the functionality both in and out of the classroom.

## Built to empower students to do their best work

Only Smartsheet gives you and your students the building blocks to drive achievement, no matter the scale of your ambition. Our flexible, no-code platform empowers any user to easily design a solution that meets their unique needs — and adapt as needs evolve.

### Succeed inside and outside of the classroom

Whether attending class in a virtual or in-person setting, students can use Smartsheet to analyze data, manage coursework, and communicate clearly with classmates and professors.

### Collaborate and organize projects

Students can easily collaborate with classmates on projects and keep track of what's due next. Help them plan strategy, timelines, and organize group efforts while improving visibility into what needs to get done.

### Manage student life

Set up automatic status updates and task due date reminders to help students manage their personal, recreational, and academic life — from classwork to student-led campus organizations.

### Jump-start productivity

With the intuitive Smartsheet interface, our growing library of pre-built templates, and deep integrations with student favorites mean, students get up to speed and work quickly, without outside help.

## What's included

Gain free access to all Smartsheet Enterprise Plan capabilities for students, which include unlimited sheets, easy group management, live data visualization with dashboards and charts, a customizable user experience, and much more.

You'll also gain access to the Center of Excellence, our self-guided virtual training library, so you can manage onboarding and training at your own pace.

## On-demand training

Develop and enhance the skills you and your students need — and become Smartsheet Product Certified — with the Smartsheet Center of Excellence, our on-demand, virtual training library.

With the Smartsheet for Students Plan you'll be able to:

### Learn at your own pace with e-Academy

Build your skills with our online education course, which provides a combination of video tutorials and hands-on exercises.

### Become Product Certified

Demonstrate your Smartsheet competency by getting Smartsheet Product Certified.

### Continue your education

Keep learning with exclusive access to our full library of training videos.

### Earn PDUs

Smartsheet is approved by the Project Management Institute (PMI®) as a Registered Education Provider. You can earn credits through completion of the e-Academy or the Project Management Fundamentals courses within the Center of Excellence.

## Let Smartsheet help you prepare for tomorrow.
