Certain information set forth in this presentation may be “forward-looking information.” Except for statements of historical fact, information contained herein may constitute forward-looking statements. Forward-looking statements are not guarantees of future performance and undue reliance should not be placed on them. Such forward-looking statements necessarily involve known and unknown risks and uncertainties, many of which are and will be described in Smartsheet’s filings with the US Securities and Exchange Commission, and these risks and uncertainties may cause actual performance and financial results in future periods to differ materially from any projections of future performance or results expressed or implied by such forward-looking statements. Although forward-looking statements contained herein are based upon what Smartsheet management believes are reasonable assumptions, there can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Smartsheet undertakes no obligation to update forward-looking statements except as required by law.

Welcome!

1. Define what a project sheet is, and what makes it special
2. Learn how to create and manage dependencies in a project sheet
3. Learn how to proof and track content as part of your project or process

Cicero
Senior Global Product Readiness Manager
Smartsheet
What did we learn?

1. Define what a project sheet is, and what makes it special
   - Gantt chart is one of the views in Smartsheet
   - Requires two date columns, then can use dependencies and predecessors

2. Learn how to create and manage dependencies in a project sheet
   - Edit project settings

3. Learn how to proof and track content as part of your project or process
   - Proofing can be used for images, PDFs, videos, and MS Office documents
In closing...

1. **Help & Learning Center**
   smartsheet.com/learning
   - Find self-service resources including guided learning tracks with tutorial videos, help articles, and templates, or sign up for upcoming webinars.

2. **Training & Certification**
   smartsheet.com/training
   - Get hands-on, activity-based training on demand or instructor led. Become product certified to be the expert for your team.

3. **Smartsheet Community**
   community.smartsheet.com
   - Connect with other Smartsheet users to learn about what’s new, ask questions, and share ideas and best practices.

4. **ENGAGE Brain Boost**
   Project Management
Thank you
