

Partners of the Americas helps Colombian cacao farmers become more productive and sustainable

“Using **Cacaogramas** created with **Smartsheet**, farmers can be their own project managers and be completely in charge of their businesses.”

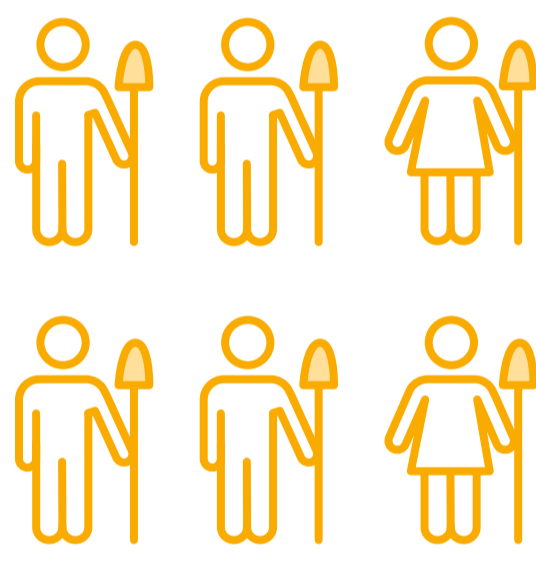

Pablo Ramirez,
Chief of Party, Partners of the Americas

Focusing on value chain optimization, creation of living income and facilitation of carbon capture, the USDA Food for Progress Cacao for Development (C4D) project, implemented by Partners of the Americas (Partners), offers farmers an alternative to illegal plantations.
