Core App Bootcamp	Introductory	<p>We designed this workshop to help you use Smartsheet effectively as a collaborative work management solution. Learn about fundamental capabilities, including sheets, reports, automations, formulas, and dashboards. This workshop will also give you a solid foundation for pursuing the Core Product Certification.</p> <p>Prerequisites: None</p>	<ul style="list-style-type: none"> Learn how to create, navigate, and track your work Collaborate to notify, update, and track in real-time Perform calculations, analyze data, and automate processes Collect and act on gathered data Create automations to optimize your work Surface key information to the right audience 	SMAR-CAB-ILT-EN	4741BB5MA5
Introduction to Smartsheet & Project Management	Introductory	<p>We designed this workshop to help you get started on using Smartsheet's Project Management capabilities. We will also cover in this workshop essential foundational Smartsheet core application knowledge. This course can also be a solution foundation for those interested in pursuing the Project Management Certification.</p> <p>Prerequisites: None</p>	<ul style="list-style-type: none"> Establish a Work Breakdown Structure and proper project settings Collaborate with stakeholders and both internal and external collaborators Create and manage intake sheets such as RAID logs with logic forms Build key metrics formulas by creating cross-sheet formulas Prepare data for Dashboards and examine widgets used for data collected 	SMAR-INTRO-ILT-EN	47413FTN4A
Unlocking Control Center	Intermediate	<p>We designed this workshop to help you explore whether Smartsheet Control Center (SCC) is right for your organization. Learn the fundamentals of how our robust project and portfolio management tool builds on Smartsheet's core capabilities. We will also cover all Control Center's key terminology and functionality.</p> <p>Prerequisites: None</p>	<ul style="list-style-type: none"> Review purpose of Control Center, potential use cases, features, and skills needed Examine Control Center components and the data flow Configure blueprints and provision projects Examine additional features 	SMAR-CC-ILT-EN	4741FGAWIY
