About Content Marketing

Content marketing is focused on creating and distributing valuable, relevant, and consistent content to attract and retain a clearly-defined audience. And, ultimately, to drive profitable customer action.

This content-centric strategy continues to be a top priority for marketers, and this guide is built to help you use Smartsheet to maximize your content plan.

Generate better ROI from your content
Our Channel Plan helps you brainstorm and document a focused, efficient strategy.

Rally around a single editorial calendar
Give your team a single editorial calendar so you know who’s creating what, when and for whom.

Create targeted content
Develop customer personas to make the right content for the right audience.

See progress in real time
Track content development in real time so you never miss a deadline.
Who should use this guide?

Whether you’re a marketing professional building new content or seeking ways to improve your current strategy, you’re in the right place.

Common roles/titles who would benefit from this solution include:

- Marketing Directors
- Marketing Managers
- Content Marketers
- Project Managers
- Marketing Operations Managers
- Marketing Consultants
- Creative Agencies
- Writers
- Designers

What You’ll Learn

This guide is designed to show you how you can build and execute a world-class content strategy with Smartsheet. This guide will cover the following:

1. An overview of the solution
2. A tour of the individual sheets
3. How to get going
4. Helpful resources and cheat sheets
Components

1. **PLAN**
   - **Content Channel Plan**
     Align channels with people, dates and content in this cornerstone of your marketing plan.

2. **COLLABORATE**
   - **Content Calendar**
     Rally your team around dates and deliverables, and foster accountability.

3. **CREATE**
   - **Customer Personas**
   - **Content Creation Checklist**
   - **Agency Creative Brief**
   - **Customer Stories**
     Help your content creators deliver targeted pieces that resonate with the right audience.
Equally important to creating great content is building a plan for how this content will reach its intended audience. Smartsheet’s Content Channel Plan helps you think about how to adapt content to specific channels while staying aligned with your overall strategy.

Use hierarchy to group your content by channel so you can see the customer experience within each channel.

List the types of content for each channel to ensure you have the right variety.

Set contact list columns for your authors so you can request updates and set alerts from Smartsheet.

Use your personas to verify that your content is built for the right audience.

Define publishing cadence for each channel so you don’t over-serve or under-serve any of your target audiences.

Content Calendar

A content calendar is the pillar of your content strategy, and Smartsheet is the perfect tool for a content calendar with its extra collaboration features. You can see who is creating what for when and the status of each piece, as well as attach deliverables and have discussions within the calendar.

- Attach drafts or final deliverables so others can see the content being created.
- Set custom permissions and easily share the calendar with your internal and external content creators.
- Easily toggle to a traditional calendar view.
- Drive accountability by layering in dates and status.
- Color-code content types to visualize your frequency.
Creating relevant content on a monthly, weekly or even daily basis can be overwhelming. This leads to poor content that doesn’t resonate with the intended audience. Personas can help create the right content for the right people. Having them in Smartsheet makes it easy to update and share the latest version.

- Attach a picture to help others connect with the persona.
- Securely share this sheet so your teams and vendors always have the latest version.
- Give your personas relatable names so you can easily reference them when developing your content plans.

- The number of personas you develop should represent the diversity of your target demographic. Identify personas that are distinct and detailed, and that adequately illustrate your users’ characteristics.

- Identify personas help you think through the best messaging and content vehicles to reach your target audience.
A common methodology helps maintain consistency across content and channels.

Content creators love Smartsheet because they can show status and progress right alongside their content.

Show progress and status through checkboxes and RYG columns.

Leverage your personas so you know who you’re creating content for.

Content Creation Checklist

With a team of different internal and external content creators, it can be a challenge to keep a consistent tone and stay on-message. Develop a methodology around your content creation process to ensure that you always create great, relevant content, no matter who is creating it.
Real customer stories are a powerful part of any marketing toolkit. Building a great story often means a lot of back and forth with the customer, followed by intense collaboration with your team of writers, designers and marketers. Smartsheet helps you do all that and more in the most efficient way possible.

Log customer notes, attach interview guides, and document customer interactions.

Easily switch to a Gantt chart view to visualize timelines and dependencies. Color-code tasks for quick visual reference.

Use hierarchy to group subtasks.

Color-code tasks for quick visual reference.
Agency Creative Brief

Communication is key to a successful relationship with your agency. Smartsheet’s Agency Creative Brief helps you document tasks, files, and discussions in one centralized location, keeping everyone aligned on scope, budget and expectations.

Engage your agency in discussions within Smartsheet to keep things in context.

Keep your agency on-message by attaching your branding and positioning documents.

Share this sheet directly with your agency contacts. Remember, collaborators are always free with Smartsheet!

See agency progress in real time so your check-in meetings revolve around what matters – the content.
## Jump-Start Your Content Marketing with Smartsheet

Smartsheet Cheat Sheet
Keyboard Shortcuts

**Basics**

<table>
<thead>
<tr>
<th>Function</th>
<th>Keyboard Shortcut</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Enters edit mode on selected cell</td>
<td>F2 / F2</td>
<td></td>
</tr>
<tr>
<td>Saves all unsaved information</td>
<td>Ctrl + S</td>
<td></td>
</tr>
<tr>
<td>Undo the previous action since last save</td>
<td>Ctrl + Z</td>
<td></td>
</tr>
<tr>
<td>Redo the previous action since last save</td>
<td>Ctrl + Y</td>
<td></td>
</tr>
<tr>
<td>Inserts a row above the selected row.</td>
<td>Ins</td>
<td></td>
</tr>
</tbody>
</table>

To insert multiple rows at once, press Shift and select multiple row headers, then click Ins.

**Formatting**

<table>
<thead>
<tr>
<th>Function</th>
<th>Keyboard Shortcut</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Inserts a carriage return or line break in Text Number cells. In order to see the carriage returns in the sheet, apply wrap formatting to the cell by clicking the Wrap icon in the left toolbar.</td>
<td>Ctrl + Enter (or) Alt + Enter</td>
<td></td>
</tr>
<tr>
<td>Indents Primary Column only</td>
<td>Ctrl + K</td>
<td></td>
</tr>
<tr>
<td>Outdents Primary Column only</td>
<td>Ctrl + M</td>
<td></td>
</tr>
<tr>
<td>Italic</td>
<td>Ctrl + I</td>
<td></td>
</tr>
<tr>
<td>Bold</td>
<td>Ctrl + B</td>
<td></td>
</tr>
<tr>
<td>Underline</td>
<td>Ctrl + U</td>
<td></td>
</tr>
</tbody>
</table>

**NOTE:** Mac users should use Cmd instead of Ctrl unless otherwise noted.
**Formulas**

- **Ctrl + L x 1**: Inserts $ before column name (horizontal cell reference lock).
- **Ctrl + L x 2**: Inserts $ after column name (vertical cell reference lock).
- **Ctrl + L x 3**: Inserts $’s around column name (full cell reference lock).

**Date Column Cells**

- **t**: Inserts today’s date.
- **+:** Enters date x days from today.
- **-**: Enters date x days before today.
- **mon / tue / wed / etc...**: Inserts date of the current week’s Monday, Tuesday, Wednesday, etc.
- **yes**: Inserts yesterday’s date.
- **tom**: Inserts tomorrow’s date.
- **next week**: Inserts date seven days from today.
- **last week**: Inserts date from seven days ago.
- **Dec 15 / Jan 3 / etc**: Inserts date of string entered.

**Additional**

- **Ctrl + L**: Displays the Open a Sheet form.
- **Ctrl + G**: Displays the Go To Row form. Type in the row number you’d like to scroll to then click OK.
- **Home**: Takes you to the first cell of the row you are currently on.
- **End**: Takes you to the last cell of the row are are currently on.
- **Pg Up**: Moves you up in your sheet.
- **Pg Dn**: Moves you down in your sheet.
- **Space**: Displays or removes a checked box, star or flag in the selected cell. Learn more about checkbox, star and flag columns in our Column Types article.
**SUM():** Adds selected values, or a range of cells.
Example: =SUM(Cost1: Cost5)
Result: 1125.75

**AVG():** Averages selected values, or a range of cells.
Example: =AVG(Cost1: Cost5)
Result: 225.15

**MAX():** Returns the highest numeric value, or latest date.
Example: =MAX(Cost1: Cost5)
Result: 425.75

**MIN():** Returns the lowest numeric value, or earliest date.
Example: =MIN(Cost1: Cost5)
Result: 100

**INT():** Returns the integer portion of a given number.
Example: =INT(Cost5)
Result: 425

**ROUND():** Rounds a given number to the desired # of digits.
Syntax: ROUND(cell1, # of digits)
Example: =ROUND(Cost5, 1)
Result: 425.8

**ABS():** Returns the absolute value of a given number.
Example: =ABS(-85)
Result: 85

**COUNT():** Counts non-blank cells in a given range.
Example: =COUNT([Task Name],[Task Name])
Result: 5

**LEN():** Returns the number of characters (length) in a given cell.
Example: =LEN([Task Name]5)
Result: 6

*NOTE: Formatting/currency values aren’t included. Dates have a length of 5.*
## Logic Formulas

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>Syntax</th>
<th>Example</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>IF()</strong></td>
<td>Performs a logical test. One value is returned if the test is true, a different value is returned otherwise.</td>
<td><code>IF(logical_test, value_if_true, value_if_false)</code></td>
<td><code>=IF([Due Date]1 &gt; [Due Date]2, &quot;Date 1 is Larger&quot;, &quot;Date 2 is Larger&quot;)</code></td>
<td>Date 2 is Larger</td>
</tr>
<tr>
<td><strong>ISBLANK()</strong></td>
<td>Used within an IF formula to test if a cell is blank.</td>
<td><code>IF(ISBLANK([Task Name]1), &quot;Cell is blank&quot;, &quot;Cell isn’t blank&quot;)</code></td>
<td></td>
<td>Cell isn’t blank</td>
</tr>
<tr>
<td><strong>ISTEXT()</strong></td>
<td>Used within an IF formula to test if a cell contains text (and not checkboxes, dates, numbers, etc).</td>
<td><code>IF(ISTEXT([Due Date]1), &quot;Cell is text&quot;, &quot;Cell isn’t text&quot;)</code></td>
<td></td>
<td>Cell isn’t text</td>
</tr>
<tr>
<td><strong>ISNUMBER()</strong></td>
<td>Used within an IF formula to test if a cell contains a number (a value which is not text, date, or checkbox).</td>
<td><code>IF(ISNUMBER([Task Name]1), &quot;Cell is a number&quot;, &quot;Cell isn’t a number&quot;)</code></td>
<td></td>
<td>Cell isn’t a number</td>
</tr>
<tr>
<td><strong>ISDATE()</strong></td>
<td>Used in an IF formula to test if a cell contains a date.</td>
<td><code>IF(ISDATE([Due Date]1), &quot;Cell is a date&quot;, &quot;Cell isn’t a date&quot;)</code></td>
<td></td>
<td>Cell is a date</td>
</tr>
<tr>
<td><strong>ISBOOLEAN()</strong></td>
<td>Used in an IF formula to test if a cell contains a boolean value (check box, priority, star or flag).</td>
<td><code>IF(ISBOOLEAN(Done1), &quot;Cell is a boolean&quot;, &quot;Cell isn’t a boolean&quot;)</code></td>
<td></td>
<td>Cell is a Boolean</td>
</tr>
</tbody>
</table>
**Logic Formulas (cont.)**

**AND():** Used within an IF formula. Evaluates if a set of logical expressions are True or False. If any expression is False it will evaluate as False.

Syntax: `AND(boolean_expression1, boolean_expression2, boolean_expression3, ...)`
Example: `=IF(AND(Done1, Done2, Done3), "All Tasks Complete", "Tasks Incomplete")`
Result: Tasks Incomplete

**NOT():** Used within an IF formula. Performs a logical NOT on the supplied boolean expression (or cell reference).

Syntax: `NOT(Done1)`
Example: `=IF(NOT(Done1), "Task A Not Complete", "Task A Complete")`
Result: Task A Complete

**OR():** Used within an IF formula. Performs a logical OR on the supplied boolean expression or cells. Returns true if any are true; otherwise returns false.

Syntax: `OR([Due Date]1 > [Due Date]2, [Due Date]1 > [Due Date]3)`
Example: `=IF(OR([Due Date]1 > [Due Date]2, [Due Date]1 > [Due Date]3), "Due Date 1 isn't the smallest", "Due Date 1 is the smallest")`
Result: Due Date 1 is the smallest

**NESTED IF():** Performs multiple logical tests. Smartsheet reads the IF statements in the formula from left to right, displaying a value based on which one evaluates to true.

Syntax: `IF(logical_test, value_if_true, IF(second_logical_test, value_if_true, value_if_all_false))`
Example: `=IF([Task Name]1 = "Task A", "This is Task A", IF([Task Name]1 = "Task B", "This is Task B", "Neither Task A nor Task B"))`
Result: This is Task A
