Certain information set forth in this presentation may be “forward-looking information.” Except for statements of historical fact, information contained herein may constitute forward-looking statements. Forward-looking statements are not guarantees of future performance and undue reliance should not be placed on them. Such forward-looking statements necessarily involve known and unknown risks and uncertainties, many of which are and will be described in Smartsheet's filings with the US Securities and Exchange Commission, and these risks and uncertainties may cause actual performance and financial results in future periods to differ materially from any projections of future performance or results expressed or implied by such forward-looking statements. Although forward-looking statements contained herein are based upon what Smartsheet management believes are reasonable assumptions, there can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Smartsheet undertakes no obligation to update forward-looking statements except as required by law.

Why Dynamic View?

I need a way to collaborate with more people – but don’t want to share them to all of the underlying work.
Dynamic View enables business owners to share only what is needed to the right people at the right time for viewing or editing.
Key Capabilities / Scenarios

Collaboration with Confidentiality
Working with vendors or across orgs (finOps scenarios) without them knowing about each other

Simplifying Views into a Complex Process
Order management scenarios where the process is complex but each person only needs a partial view

Departmental Request Management Scenarios
BI requests, marketing creative services, sales tickets, etc
Scenario 1: Request Management

Dynamic View – An Overview
Scenario 2: Vendor Collaboration In Projects

Scaling with Reports
Scenario 3: Confidential Collaboration

Asset Management & more...
Don’t forget to:
