

Work Smarter

+

Smartsheet is the collaborative work management tool that lets you easily track and manage your work so you and your team can be more productive than ever. Smartsheet's integration with Google Apps for Work streamlines processes and enables powerful collaboration capabilities for teams and companies of any size.

Collect Google forms responses

Import data into a Google document

Attach files from Google Drive

Embed project workflows in Gmail

Sync project dates to Google calendar

Work in Context

Smartsheet's familiar spreadsheet interface enables you to create detailed project or process plans, add structure, track progress, and collaborate with others. Attach files from Drive, to a specific row or task, to create one location for important project details.

Collaboration Made Easy

Import Google Contacts to easily share your work with internal and external collaborators. Start a meeting with Google Hangout directly from your project sheet. Send rows that include Google Drive attachments to collaborators, whether they have a Smartsheet account or not. This real-time collaboration streamlines communication and improves productivity.

Instantly start a Google Hangout to video chat

Start a discussion and include file attachments like Google Docs

Make Work Visible

Reporting and Smartsheet Sights™ provide transparency into what your team is working on, who they are working with, and the status of projects across the organization. Track KPIs and quickly surface potential problems, with the insights provided by Sights.

Administrative Controls

Administrators can add Smartsheet from the Apps Add-ons toolbar or Google Apps Marketplace. Nothing to download, no set-up required. Users can sign-on to Smartsheet with Google credentials to provide seamless, secure access to accounts from anywhere, on any device. Get the Google Android app by visiting the Google Play Store.
